## DETAILED ACTION

### Request for Continued Examination (RCE)

The RCE filed on August 14, 2007 has been processed. A non-final follows.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1-3, 8-23, 25-31, 36-46, and 48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Djuknic (6,964,374) in view of Powar (6,438,527).

Djuknic discloses the invention substantially as claimed (fig.2 and col.7, line 20 to col.8, line 67); however, Djuknic does not disclose a bill paying transaction. Powar teaches a method and corresponding system for paying bill electronically by means of scanning the code to process the electronic payment (fig.5). It would have been obvious to one having ordinary skill in the art at the time the invention was made to

incorporate the teachings of Powar within Djuknic for the motivation of providing an alternative means of using the scanning device utilizing the Internet.

***Response to Arguments***

Applicant's arguments with respect to claims 1-3, 8-23, 25-31, 36-46, and 48 have been considered but are moot in view of the new ground(s) of rejection.
